ANTWORKS™

Reimagine RCM

RCM Services are overlooked by most healthcare providers but one Pulmonary practice quickly learned the incredible value of having the additional services.

The Challenge:

A Pulmonary client came to us with 18 doctors and 3 locations. Their billing professionals chose a different path without much notice leaving the practice worried about how the billing would get done, and done well enough to keep them from going backwards. The main challenge was their A/R aging beyond what is acceptable by payers to allow for recoupment, making it uncollectable A/R.

The Solution:

The billing team here at AntWorks Healthcare combed through stacks of information and data sheets. By following up on claims and restructuring their internal staff, we were able to work together to find areas of lost revenue. Enjoy your billing staff? We want you to have the freedom to run your practice and keep the staff that help you run it. Regarding the in-office billers and managers, "they are still very valuable to us", says Angie Martin, Manager of RCM and Billing at AntWorks. "Their staff and our billing team worked hard to bring them improved financial health."

The Result:

Cleaned up
practice's A/R
in 1 year by
\$300,000

Reduced 1
Doctor's A/R by
\$48,246 in just
1 year

After seeing these results, this Pulmonary practice's COO shared about how relieved she was that they found a partner they could trust to manage their revenue cycle. This was a team effort for AntWorks to help the practice get on their feet again.

You Too Can Have Financial Freedom:

Through the passion and devotion in bringing fresh ideas, fearless approach, and fast execution, AntWorks can get you back on track to financial freedom. We offer a financial analysis with free consulting from our billing staff, so even if you're the slightest bit curious about your practice's financial health, simply ask us how to get started. You may never know the full potential of your practice until you let AntWorks streamline your financials, making sure you get every dollar you deserve.
